**LA COMISIÓN INTERVENTORA DEL
INSTITUTO ECUATORIANO DE SEGURIDAD
SOCIAL**

Considerando:

Que las bases técnicas utilizadas tradicionalmente por el ESS, para efectos del cálculo de las reservas matemáticas de los seguros generales de invalidez, vejez y muerte y del seguro social campesino, tienen data en el año 1956 y no corresponden a la biometría de la población ecuatoriana;

Que ha concluido la realización de los estudios actuariales para determinar el valor de los activos y pasivos actuariales de cada uno de los seguros sociales previstos en la Ley 2001-55 de Seguridad Social;

Que los estudios aduanales realizados por las compañías consultoras contratadas por el ESS, para dar cumplimiento al mandato de la Disposición Transitoria Segunda de la Constitución Política de la República, tienen fundamento en la medición de los riesgos de invalidez, muerte, rotación, supervivencia, según la experiencia ecuatoriana del período 1995-2000;

Que por primera vez en la historia de la seguridad social ecuatoriana, los estudios actuariales se fundamentan en bases técnicas y metodológicas, de carácter demográfico, financiero y actuarial, aplicadas a la medición empírica de hechos biométricos y económicos a los cuales está expuesta la población ecuatoriana;

Que la adopción de bases técnicas construidas a partir de la experiencia ecuatoriana, con la información acumulada en el Instituto Ecuatoriano de Seguridad Social (EESS) y en el Instituto Nacional de Estadística y Censos (INEC), es imprescindible para el sano manejo de los programas de aseguramiento de la población a ser protegida por la Ley 2001-55 de Seguridad Social;

Que es necesaria la aprobación y puesta en vigencia de las tablas de actividad y de las tablas de mortalidad de pensionistas y beneficiarios, de montepío, entregadas por las compañías consultoras que han realizado los estudios aduanales antencionmente citados, para su aplicación en todos los estudios técnicos y de cálculo de reservas que deba realizar el ESS.

Que los activos y pasivos actuariales deben ser valuados con una tasa de descuento que represente el rendimiento real mínimo de la inversión de las reservas acumuladas en los fondos previsionales y asegure su capitalización suficiente; y,

En uso de las atribuciones que le confieren la Disposición Transitoria Segunda de la Constitución Política de la República y el artículo 27, literal p) de la Ley 2001-55 de Seguridad Social,

Resuelve:

Art. 1.- Apruébase las tablas de actividad, tablas de mortalidad de pensionistas y tablas de mortalidad de beneficiarios de montepío contenidas en el documento

"INSTITUTO ECUATORIANO DE 'SEGURIDAD SOCIAL, TABLAS BIOMETRICAS, SEPTIEMBRE 2001", anexo a esta resolución.

Art. 2.- Establécese en cuatro por ciento (4%) anual, la tasa de interés actuarial.

En el largo plazo, para impedir su descapitalización, el rendimiento real mínimo del portafolio de las inversiones de los fondos previsionales no podrá ser inferior a la tasa de interés actuarial.

Art. 3.- Cada tres años, la Dirección Actuarial presentará al órgano de gobierno del ESS el informe técnico de los hechos biométricos y económicos que justifiquen la revisión y puesta al día de las tablas aprobadas en el Art. 1 de esta resolución. Para este efecto, bajo su responsabilidad, la Dirección Actuarial está obligada a mantener un sistema de registro estadístico de los eventos demográficos, económicos y financieros a los que está expuesta la población ecuatoriana.

DISPOSICIONES GENERALES:

Primera.- La Dirección Aduanal aplicará obligatoriamente los instrumentos aprobados en los artículos 1 y 2 de esta resolución, en todos los estudios técnicos y de cálculo de reservas que realice el ESS.

Segunda.- La Comisión Técnica de Inversiones evaluará y ajustará el rendimiento del portafolio de las inversiones de los fondos previsionales administrados por el ESS, con referencia a la tasa actuarial aprobada en el Art. 2 de esta resolución.

DISPOSICIÓN FINAL- Esta resolución entrará en vigencia a partir de la fecha de su aprobación.

Publíquese en el Registro Oficial - Comuníquese- Quito. 26 de julio del 2002.
